TERSELY TOLD.

\$5.00 REWARD.
The Journal will pay \$5.00 reward for evidence sufficient to convict any boy or person found stealing subscribers' papers after delivery of same by carrier.

Mr. and Mrs. S. Dunlap and Miss Mattie Snyder of Caryville, were among the arrivals in the city last night. Miss Snyder was formerly postmistress at Caryville and resigned only a few days ago. The party registered at the San Carlos.

D. P. McKenzie of Millville, one of the prominent citizens of that thriving town, is in the city on a short business visit.

Robert McCaskill of DeFuniak, was among the arrivals in the city last night.

F. U. Athey and R. S. Jones, of Atmore, are in the city on a business visit.

Mr. and Mrs. L. J. Mixon and A. A. Williams of Evergreen, are visitors to Pensacola. They are registered at the San Carlos.

J. E. Graves, a prominent business man of DeFuniak, is in the city on a short business visit.

K. A. Chappelle of The Journal, left last night for points in Washington county on a business visit.

Editor Mooney of the DeLand Register, arrived in the city last night on a short visit.

DRY CLEANING PLANT ADDED

STAR LAUNDRY AND DRY CLEANING CO. HAVE INSTALLED A MODERN AND COMPLETE PLANT.

A modern dry cleaning plant has been installed by the Star Laundry and Dry Cleaning Co. in the almost complete establishment of that company, and it is the intention now to make a specialty of dry cleaning.

This addition of modern and sanitary machinery has been made necessary by the increasing business and demand for such an establishment in Pensacola. Careful and experienced employees will operate the new plant.

SOCIAL WORKERS AND YOUNG MEN LIKE BEVERIDGE TAKE PLACE OF OLD TIME POLITICIANS IN MOOSE LIMELIGHT

Here's bunch of women delegates from Mass., all social workers. They are, left to right, Mrs. Louis J. Johnson, Mrs. Richard W. Childs, Mrs. Elizabeth Towne, Miss Mabel Cook, Miss Helen Temple Cook.

BY VIRGIL V. McNITT.
Chicago, Aug. 13.—After viewing the panorama of the first national Progressive convention, we may give some attention in retrospect to these points:
The convention was notable for the small part played by some of the conspicuous Roosevelt workers in the Republican convention, like William Flinn, of Pennsylvania, and for the considerable part taken by social workers, like Jane Addams. Mr. Flinn must have felt lonesome more than once. You wouldn't have known he was here from anything that happened.

Former Senator Beveridge, through his keynote speech, sprang into favor in much the same manner that Gov. Hadley won the hearts of the Progressive element of the Republican convention in June. Beveridge quickly became the popular hero, the matinee idol. The eloquent young advocate is taking the place of the old-line politician in these national gatherings.

After Southern Whites.
The question of the southern negro delegate will of course become an important issue within the new party. Opponents will make the most of the

opportunity, and may alienate much of the southern colored vote from Roosevelt. The colored idea is to encourage southern white men to join the party, rather than to discourage them by letting the colored brothers organize the party in the south. He says that he hopes southern white men will call upon the colored men to send part of the delegates to future conventions. It is plain that he disapproves of the common type of colored politicians from the south, as developed under the old regime.

Get Few Democrats.
It is significant that very few Democrats joined in launching the new party. Judge Lindsey and John M. Parker were almost the only conspicuous former Democrats who took an active part. The conclusion to be drawn from this is that Democratic leaders are well satisfied with Gov. Wilson.

Senator LaFollette's political future now becomes a matter of interest. If Col. Roosevelt's followers are successful, they will lead out of the Republican party most of the progressives or radicals. LaFollette's proposed fight for his progressive principles within the Republican party

would be a rather fruitless battle under such circumstances. The Republican regulars would outnumber him overwhelmingly. It is now predicted that Senator LaFollette and his most devoted followers will vote for Wilson this year, and leave their future course for later events to determine. Col. Roosevelt may not expect to win, but he is happy. The Progressive convention was not a "frost," and he is satisfied. It was shown that he can arouse enthusiasm as of old, and that he does not lack for lieutenants.

Is It An Ice Wagon?
It will now be interesting to note whether Gov. Hadley, Gov. Osborn, and some of the other old followers of Roosevelt will come into the new camp, or remain in the old. Their attitude will in a manner register the impression made by the convention upon the country. It will indicate whether the feeling created in the nation at large by the events of the week leans to the belief that Col. Roosevelt is in command of a band wagon, or to the suspicion that this vehicle may be only an ice wagon after all. The convention itself, it may be insinuated in passing, did not suggest any thought of ice.

IMPROVEMENTS ARE BEING MADE AT ST. ANDREWS

THIRTY THOUSAND DOLLARS WORTH OF BONDS SOLD FOR MUNICIPAL PURPOSES—GROUND BROKEN FOR NEW SAW MILL.

St. Andrews is forging ahead at a rapid rate, not only in the way of adding new industries, but in civic pride and it is the intention of the citizens of the place to make it one of the beauty spots along the gulf coast, as well as a port of importance.

W. N. Moates, one of the prominent citizens of St. Andrews, was in the city yesterday and when seen by a Journal representative said that an issue of \$30,000 improvement bonds had just been sold by the city, and the money will be available at an early date. The money is to be used in street and other improvements.

The West Bay Naval Stores Co. has just broken ground for a new saw mill near the city, which will add considerably to the community. It will be a modern plant of about 30,000 daily capacity and the company has sufficient timber to keep the plant running for a long period of years. The first load of cement went out of Pensacola last night for the company and will be used in placing the foundation.

Healthy Mothers

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments. No remedy is so truly a help to nature as Mother's Friend, and no expectant mother should fail to use it. It relieves the pain and discomfort caused by the strain on the ligaments, makes pliant and elastic those fibres and muscles which nature is expanding, prevents numbness of limbs, and soothes the inflammation of breast glands. The system being thus prepared by Mother's Friend dispels the fear that the crisis may not be safely met. Mother's Friend assures a speedy and complete recovery for the mother, and she is left a healthy woman to enjoy the rearing of her child. Mother's Friend is sold at drug stores. Write for our free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

BRADFORD REGULATOR CO., Atlanta, Ga.

Milady's Toilet Table

By Mme. D'VILLE

"Dull and lifeless hair makes a woman look older than she should. Dry shampooing makes the hair brittle, fluff and clean—full of life and lustre. Put four ounces of powdered orris root in a fruit jar and mix it well with an original package of Therax. Sprinkle a teaspoonful of the mixture on the head once a week and brush it out thoroughly. Therax makes hair grow when everything else fails.

"The natural beauty of a person's face is marred by thin and ragged eyebrows and lashes. Rubbing gently with plain pyroxin will induce them to grow long, thick and silky. The eyebrows should be brushed daily to train them to grow into an arch.

"Instead of powder and paint, use a simple complexion lotion made at home by dissolving an original package of mayatone in a half pint of witch hazel. Gently rub over the face in the morning and all day your skin will be as clear, soft and satiny as a baby's—with no dark or muddy discolorations.

"Deltone is equal to the electric needle for the removal of superfluous hair, is positively painless, and not nearly so expensive. Just mix a little deltone with water, cover the wild hairs with this paste, let it remain two minutes, then wash the skin, and the hairs will be gone.

NEGRO LAWYER CHANGES FAITH

Rufus L. Perry.

New York, Aug. 13.—Rufus L. Perry, a negro lawyer, of Brooklyn, has embraced the Jewish religion, taking the name of Raphael Lewis. He is said to be the first American negro to become a Hebrew.

Perry denies that a young Jewish woman was responsible for his change in faith. He says that by study and acquaintance he has come to love the Jews and their religion.

Perry is a graduate of the New York law school. He came into prominence several years ago when he was Democratic candidate for the office of assistant district attorney in Brooklyn. Although he was defeated the judges sitting in Brooklyn joined in a petition to District Attorney Ridgway asking for his appointment to a vacancy caused by the resignation of John McGuire as assistant district attorney.

Perry's father, the late Rev. R. L. Perry, was the pastor of the Messiah Baptist church in Brooklyn. In Cleveland's administration he was mentioned for the consulship in Liberia. His extreme youth prevented the appointment.

In 1899 Perry, backed by politicians, attempted vainly to get possession of 1,500 acres of land on Long Island to form a township for 6,000 negro families who were to be brought from North Carolina, South Carolina and Georgia.

INTEREST IN RAT KILLING WAS LACKING

ONLY THREE WERE DELIVERED TO THE STATE BACTERIOLOGIST FOR EXAMINATION YESTERDAY AND NO SYMPTOMS OF PLAGUE WERE FOUND.

Yesterday was another unusually dull day for rat killing, only three being delivered to the state bacteriologist for examination. This is the smallest number delivered any day since the campaign for extermination of the rodents began, and the bacteriologist and other physicians interested are of the opinion that before much real headway can be made toward ridding the city of rats experts, or special men will have to be employed to kill the rats as is now being done in some of the other cities where similar campaigns are being waged.

Nothing indicating bubonic plague was found in the three rats examined yesterday. None of them were from the vicinity of the waterfront and it was not expected that any symptoms of the disease would be found in them.

HE'S MOST UNIQUE FIGURE AMONG HUNDREDS WHO WORE BANDANNAS

Lester Leamon.
This delegate from Advance City, Ill., is six feet tall, slim as a bean pole and loaded with badges and bandannas.

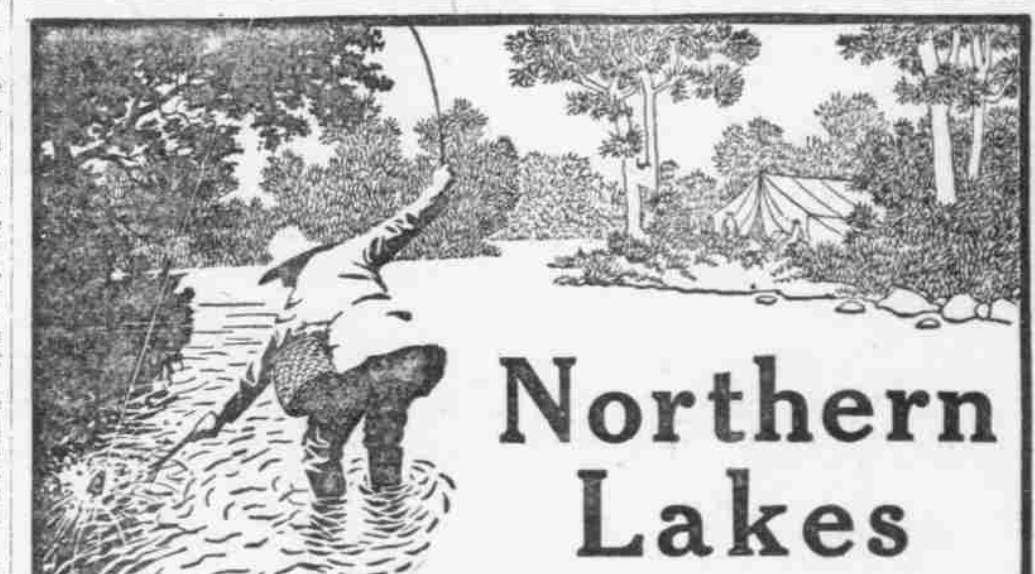

riation of \$500 to pay three cents each for the rats delivered to the bacteriological laboratory has been noted so far, and at the present rate it will be a long time before it becomes necessary for the council to supplement this appropriation.

HOW BLOOD IS MADE.

The liquids and the digested foods in the alimentary canal pass through the wall of the canal into the blood. This process is called *absorption* and takes place chiefly through the small intestine. After absorption the blood carries the food through the body, and each cell takes from the blood the food it needs. A pure glyceric extract made from bloodroot, mandrake, stone, queen's root and golden seal and sold by druggists for the past forty years under the name of Dr. Pierce's Golden Medical Discovery, gives uniformly excellent results as a tonic to help in the assimilation of the food and in the absorption by the blood of the food it requires. Eradicate the poisons from the blood with this alternative extract which does not shrink the white blood corpuscles, because containing no alcohol or other injurious ingredients. Thus the body can be built up—strong to resist disease. This is a tonic taken from Nature's garden that builds up those weakened by disease.

Dr. Pierce, founder of the Invalids' Hotel at Buffalo, N.Y., has received many letters similar to the following:

Mr. Fred R. Munro, of Paradise, N. S., writes: "I take great pleasure in writing you as regards my case and its cure. In September I was taken with Typhoid Fever, which put me in a dreadful condition. I was weak, run down, nervous and was reduced to a mere skeleton. I had tried most everything I could get but nothing did me any good until, at last, I was advised to try Dr. Pierce's Golden Medical Discovery, and 'Pleasant Pellets,' which I did. Before I had used one bottle I saw a great improvement and when I had used this treatment two months, using only a few vials of 'Pleasant Pellets,' I returned to perfect health. I cannot find words to express my thankfulness for this wonderful medicine. I advise all sufferers to write to Dr. R. V. Pierce, as he cures when others fail."

Northern Lakes

The lake resorts in the West and North are particularly attractive. The clear invigorating air added to boating, bathing and fishing will do much to upbuild you physically. We have on sale daily round trip tickets at low fares and with long return limits and will be glad to give you full information. Following are the round trip rates from Pensacola to some of the principal resorts:

Charlevoix.....	\$46.25	Mackinac Island.....	\$48.20
